

NEUROSOFT S.A.

Logistics Project Manager

(REF_LPM)

Neurosoft S.A., is a leading software, networking, information security and ICT services provider in financial, telecommunication, transportation, utilities, Gaming and government sectors, providing solutions and services aiming to increase operating efficiency and security. Listed in the Italian Stock Exchange since 2009, currently employees 200+ highly skilled professionals with in depth expertise in their field.

We have an open vacancy for a Logistics Project Manager, reporting to the Head of Supply Chain, who will be responsible for Company's Logistics projects, and will supervise and coordinate Logistics Operations (Warehouse & Transportation) across Greece and Cyprus, serving a range of customers.

Main Responsibilities

- Participates in the design and implementation of optimal Logistics (forward and reverse) and Warehouse processes for the projects served
- Develops technical analysis and use cases for the implementation and change requests of company's WMS and ERP systems and their daily use
- Develops and ensures the implementation of daily procedures, processes and practices for the planning and optimal use of logistics' resources (employees, partners and material)
- Handles communications and negotiations with key external parties, i.e. 3PL and transportation companies
- Designates the required KPIs and reports for the effective monitoring operation of company's warehouse and transportation as well as partners' warehouses across Greece and Cyprus
- In close cooperation with evolving clients' needs, adjusts company's practices and policies as needed or develops new ones
- Collaborates closely with Enterprise Field Service Department to ensure that the Logistics operations are aligned with the company's commitments

Professional Experience & Qualifications

- BSc/MSc degree in Logistics, Operational Research, Accounting, Business Administration or similar field
- At least 5 years' experience in running Logistics projects or functions
- Ability to manage all aspects of Logistics' operations from proposition development to delivery of items
- Project management experience and/or relevant certification will be an asset
- Proven ability to manage or lead teams and resources
- Excellent knowledge of WMS and ERP systems and MS Office applications
- Strong customer service orientation
- Effective communication, presentation and influencing skills
- Ability to work efficiently both within cross functional teams as well as independently
- Fluency in Greek and English language, oral and written

We Offer

A competitive compensation package, a stable and enjoyable working environment, excellent opportunities for professional development, working on leading-edge technology and industry trends.
