# SIX-MONTH REPORT OF THE BOARD OF DIRECTORS
**of «Neurosoft S.A. »**

Regarding the interim condensed consolidated Financial Statements
for the six-month period ended June 30, 2023

This six-month Report of the Board of Director (hereinafter referred for brevity as the **"Report"** or **"Six-month Report"**), refers to the six-month period (01.01.2023-30.06.2023). It has been prepared in accordance with the provisions of Articles 150-154 of Law 4548/2018 and article 5 of Law 3556/2007 and contains in a concise but meaningful, substantive and comprehensive manner all relevant information required by law to provide substantial and detailed information about the activity, during this period, of the company under the name «NEUROSOFT SOFTWARE PRODUCTION SOCIETE ANONYME» (hereafter referred to as the "Company" or «NEUROSOFT») and the NEUROSOFT Group of companies (hereinafter referred to as the "Group"), which apart from the Company include the following affiliated companies:

**(a)** "Neurosoft Cyprus Ltd.", headquartered in Cyprus, in which the Company holds a stake of 100% of its share capital,

**(b)** "Neurosoft Romania Srl" headquartered in Romania, in which the Company holds a stake of 95% indirectly through its subsidiary Neurosoft Cyprus Ltd, and Mr. Paschalidis hold the remaining 5%;,

The sections of this Report and the contents thereof, are as follows:

**SECTION A**

**Significant events that occurred during the six-month period ended June 30, 2023**

The significant events that occurred during the six-month period ended June 30, 2023 (01.01.2023-30.06.2023) with calendar order, as well as any impact on the six-month financial statements are summarized as follows:

**PPC - SD LAN & Structured Cabling Project**

PPC has issued in April 2023 an RFP covering two business lots:

- Lot 1: "Supply of required equipment and provision of related services of design, implementation and support of synchronous SD LAN data network for all building installations", with a budget of €26 m.
- Lot 2: "Supply of required equipment and provision of relevant services for design and implementation of modern cabling and construction of control/data rooms at the installation points of the SD LAN network", with a budget of €12 m.

The Company formed a union of companies with Unisytems S.A, and therefore jointly participated in Lot 1 of PPC's RFP. The technical proposal is based on advanced networking solutions by Huawei, and includes sophisticated design and implementation services, as well as maintenance and support services. The deployment of the new technology will cover 148 PPC points of interest nationwide.

In addition, the Company participated as a named subcontractor for Lot 2, providing field implementation services. Submission of responses took place in May 2023.

## SECTION B

### Principal risks and uncertainties

The Group operates in a highly competitive and especially challenging international environment, which is rapidly changing. Over the last few years the Group has systematically tried to enhance its extroversion in the geographical areas of interest, with emphasis on a continuous upgrade of products and provided solutions, while in the meantime it develops new products and promotes its entry into new markets, with a view to further penetrate new markets and thus strengthen its competitiveness.

The Group is exposed to a variety of financial risks, such as market risks (foreign exchange risk, interest rate risk, etc.), credit risk and liquidity risk.

**1. Foreign exchange risk**

Foreign exchange risk is the risk that the fair values of the cash flows of a financial instrument fluctuate due to foreign currency changes. The Group’s revenues and expenses are mainly based on Euro denominated agreements and therefore the Group is not exposed to foreign exchange risk. However, the Group's Management continuously monitors the foreign exchange risks that may arise and evaluates the need for such measures.

**2. Interest rate risk**

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in the interest rates. The Company’s exposure to the risk of changes in interest rates. The Group’s main exposure to interest rate risk arises from the Group’s bank borrowings, which are at floating rates. Management monitors fluctuations in interest rates on a continuous basis and evaluates the need for taking positions to hedge against such risks. At 30 June 2023, if interest rates on Euro denominated borrowings had been 1,0% higher with all other variables held constant, pre-tax loss for the year would have been €2,749 higher, excluding any positive impact of interest income on deposits.

**3. Credit risk**

Credit risk is the risk of financial loss to the Group if a counterparty fails to meet its contractual obligations. Credit risk arises from cash and cash equivalents and trade and other receivables. For banks and financial institutions only well established with good reputation parties are accepted and the Company set limits to the degree of exposure for each financial institution. The Management of the Group ensures that sales are addressed to customers with high credit reliability and ability. Due to the expansion of the Company's activities abroad, this risk becomes real especially with respect to foreign customers from other countries for which the effective control of credibility is not always easy to be assessed. Therefore, the Group continuously develops and further evolves its internal risk management mechanisms to fully confront this risk.

**4. Liquidity risk**

Liquidity risk is the risk that the Group or the Company will not be able to meet their financial obligations as they fall due. Liquidity risk is kept at low levels by ensuring that there is sufficient cash on demand and / or credit facilities to meet the financial obligations falling due in the next 12 months. The Group has sufficient undrawn borrowing facilities that can be utilized to fund potential shortfalls in cash resources. For the monitoring of the liquidity risk, the Group prepares cash flow forecasts on a frequent basis to ensure it has sufficient cash to meet its needs.

**5. Capital management**

The primary objective of the Group's and Company's capital management is to ensure that it maintains a strong credit rating and healthy capital ratio in order to support its business plans and maximize shareholder value. An important means of managing capital is the use of the gearing ratio (ratio of net debt to equity). Net debt includes interest bearing borrowings, as well as long-term and short-term lease liabilities less cash and cash equivalents.

**6. Other risks**

Geopolitical Risks

The geopolitical situation – with war between Russia-Ukraine continuing, difficulties in supply of certain goods and inflation rates still posing threats - creates uncertainty to global economy in general. There is no exposure of the Group to either Russia or Ukraine, resulting in no direct effect from continuing developments. Any effect is only indirect, related to the high energy cost, increase in interest rates and inflationary pressures along with the subsequent negative impact on our customers' disposable income. The Group continuously follows developments, estimating risks arising and the potential impact they might have on the Company and is planning accordingly.

## SECTION C

### Important related party transactions

Related parties have been identified based on the requirements of IAS 24 “Related Party Disclosures”.

The Group includes all entities which Company controls, either directly or indirectly (See note 1). Transactions and balances between companies in the Group are eliminated on consolidation.

The Group’s financial statements are integrated in the consolidated financial statements of OPAP S.A. under the full consolidation method. ## 2. Summary of significant accounting policies

### 2.1 Basis of preparation of financial statements

The consolidated and separate interim condensed financial statements, for the six-month period ended at June 30, 2023 have been prepared in accordance with IAS 34 "Interim Financial Reporting".

The consolidated and separate interim condensed financial statements do not include all the information and disclosures required in the annual financial statements and should be read in conjunction with the published annual financial statements for the year ended December 31, 2022 which are available on the Company's website www.neurosoft.gr .

These interim condensed separate and consolidated financial information have been prepared under the historical cost convention and the assumption of business continuity. Management continuously assesses the conditions and potential effects of the Company's operations in order to ensure that it will continue as a going concern.

The accounting policies adopted for the preparation of these interim financial statements are consistent with those followed for the year ended December 31, 2022 considering the changes to Standards and Interpretations applicable from 01.01.2023.

The preparation of the Financial Statements, in accordance with International Financial Reporting Standards (IFRS), requires the use of critical accounting estimates. It also requires management to exercise its judgment in the process of applying the accounting policies which have been adopted. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in note 4.

## 2.2 New Standard, amendments to standards and interpretations

Certain new standards. amendments to standards and interpretations have been issued that are mandatory for periods beginning on or after January 1, 2023. The Group's evaluation of the effect of these new standards. amendments to standards and interpretations is as follows:

**Standards and Interpretations effective for the current financial period**

**IFRS 17 "Insurance contracts" and Amendments to IFRS 17**

IFRS 17 has been issued in May 2017 and along with the amendments to IFRS 17 issued in June 2020. supersedes IFRS 4, IFRS 17 establishes principles for the recognition, measurement, presentation and disclosure of insurance contracts within the scope of the Standard and its objective is to ensure that an entity provides relevant information that faithfully represents those contracts. The new standard solves the comparison problems created by IFRS 4 by requiring all insurance contracts to be accounted for in a consistent manner. Insurance obligations will be accounted for using current values instead of historical cost.

**IAS 1 (Amendments) "Presentation of Financial Statements" and IFRS Practice Statement 2 "Disclosure of Accounting policies"**

The amendments require companies to disclose their material accounting policy information and provide guidance on how to apply the concept of materiality to accounting policy disclosures.

**IAS 8 (Amendments) "Accounting policies, Changes in Accounting Estimates and Errors: Definition of Accounting Estimates"**

The amendments clarify how companies should distinguish changes in accounting policies from changes in accounting estimates.

**IAS 12 (Amendments) "Deferred tax related to Assets and Liabilities arising from a Single Transaction"**

The amendments require companies to recognize deferred tax on transactions that, on initial recognition, give rise to equal amounts of taxable and deductible temporary differences. This will typically apply to transactions such as leases for the lessee and decommissioning obligations.

**IAS 12 (Amendments) "Income Taxes"**

The amendment clarifies that IAS 12 applies to income taxes arising from tax law enacted or substantively enacted to implement the Pillar Two model rules published by the OECD, including tax law that implements qualified domestic minimum top-up taxes described in those rules. The amendments introduce a temporary exception to the accounting requirements for deferred taxes in IAS 12, so that an entity would neither recognise nor disclose information about deferred tax assets and liabilities related to Pillar Two income taxes. The amendment has not yet been endorsed by the EU.

The Group and the Company have adopted the abovementioned amendments that don't have material impact on the consolidated and separate financial statements.

**Standards and Interpretations effective for subsequent periods**

A number of new standards and amendments to standards and interpretations are effective for subsequent periods and have not been applied in preparing these consolidated and separate financial statements. The Group and the Company are currently investigating the impact of the new standards and amendments on its financial statements.

**IAS 1 (Amendment) "Classification of liabilities as current or non-current" (effective for annual periods beginning on or after January 1, 2024):**

The amendment clarifies that liabilities are classified as either current or non-current, depending on the rights that exist at the end of the reporting period. Classification is unaffected by the expectations of the entity or events after the reporting date. The amendment also clarifies what IAS 1 means when it refers to the 'settlement' of a liability. The amendment has not yet been endorsed by the EU.

**IFRS 16 (Amendment) 'Lease Liability in a Sale and Leaseback (effective for annual periods beginning on or after 1 January 2024)**

The amendment clarifies how an entity accounts for a sale and leaseback after the date of the transaction. Sale and leaseback transactions where some or all the lease payments are variable lease payments that do not depend on an index or rate are most likely to be impacted. An entity applies the requirements retrospectively back to sale and leaseback transactions that were entered into after the date when the entity initially applied IFRS 16. The amendment has not yet been endorsed by the EU.

**IAS 1 (Amendment) "Non-Current Liabilities with Covenants" (effective for annual periods beginning on or after January 1, 2024):**

The amendments specify that only covenants that an entity is required to comply with on or before the end of the reporting period affect the entity's right to defer settlement of a liability for at least twelve months after the reporting date (and therefore must be considered in assessing the classification of the liability as current or non-current). Such covenants affect whether the right exists at the end of the reporting period, even if compliance with the covenant is assessed only after the reporting date. The right to defer settlement is not affected if an entity only has to comply with a covenant after the reporting period. However, if the entity's right to defer settlement of a liability is subject to the entity complying with covenants within twelve months after the reporting period, an entity discloses information that enables users of financial statements to understand the risk of the liabilities becoming repayable within twelve months after the reporting period. The amendment has not yet been endorsed by the EU.

**IAS 7 (Amendments) "Statement of Cash Flows" and IFRS 7 (Amendments) "Financial Instruments: Disclosures" (effective for annual periods beginning on or after January 1, 2024):**
The amendments add a disclosure objective to IAS 7 stating that an entity is required to disclose information about its supplier finance arrangements that enables users of financial statements to assess the effects of those arrangements on the entity's liabilities and cash flows and the entity's exposure to liquidity risk. Under the existing Application Guidance in IFRS 7, an entity is required to disclose a description of how it manages the liquidity risk resulting from financial liabilities. The amendments include as an additional factor whether the entity has accessed or has access to supplier finance arrangements that provide the entity with extended payment terms or the entity's suppliers with early payment terms. The amendments have not yet been endorsed by the EU.

## 2.3 Basis of consolidation

### (a) Subsidiaries

The consolidated financial statements are comprised of the financial statements of the Company and all subsidiaries controlled by the Company directly or indirectly. Control exists when the Group is exposed to, or has rights to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group and cease to be consolidated from the date on which control ceases.

The Group applies the acquisition method to account for business combinations. The consideration transferred for the acquisition of a subsidiary is the fair values of the assets transferred, the liabilities incurred to the former owners of the acquiree and the equity interests issued by the Group. The consideration transferred includes the fair value of any asset or liability resulting from a contingent consideration arrangement. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. For each business combination, the acquirer measures the non-controlling interest in the acquiree either at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition costs are expensed as incurred.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquisition. If the business combination is achieved in stages, the acquisition date carrying value of the acquirer's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date through profit or loss. Any contingent consideration to be transferred by the acquirer is recognized at fair value at the acquisition date. Subsequent changes to the fair value of the contingent consideration are recognized in accordance with IFRS 9 either in profit or loss or as a change to other comprehensive income. Contingent consideration that is classified as equity is not remeasured and its subsequent settlement is accounted for within equity.

The financial statements of the subsidiaries are prepared as of the same reporting period as the parent company, using consistent accounting policies. All intercompany balances, transactions and any intercompany profit or loss are eliminated in the consolidated financial statements.

**(b) Changes in ownership interests in subsidiaries without loss of control**

Transactions with non-controlling interests that do not result in change of control are accounted for as equity transactions. The difference between fair value of any consideration paid and the relevant share acquired of the carrying value of net assets of the subsidiary is recorded in equity. Gains or losses on disposals to non-controlling interest are also recorded in equity.

**(c) Disposal of / loss of control over subsidiary**

When the Group disposes of or ceases to have control or any retained interest in the subsidiary it is remeasured to its fair value at the date of disposal or when control is lost, with the change in carrying amount recognized in profit or loss. The fair value is the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate or financial asset. In addition, any amounts previously recognized in other comprehensive income in respect of that subsidiary are reclassified to profit or loss.

## 3. Financial risk management

### 3.1 Financial risk factors

The Group is exposed to a variety of financial risks such as market risks (foreign exchange risk, interest rate risk, etc.), credit risk and liquidity risk. Financial risks are associated with the following financial instruments: trade receivables, cash and cash equivalents, trade and other payables and borrowings.

**(a) Market risk**

**i) Foreign exchange risk**

Foreign exchange risk is the risk that the fair values of the cash flows of a financial instrument fluctuate due to foreign currency changes. The Group's revenues are mainly based on Euro denominated agreements and therefore the Group is not exposed to foreign exchange risk. However, the Group's management continuously monitors the foreign exchange risks that may arise and evaluates the need for such measures.

### ii) Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in the interest rates. The Group's exposure to the risk of changes in interest rates relates to the Group's bank borrowings, which are at floating rates. Management monitors on a continuous basis, fluctuations in interest rates and evaluates the need for taking relevant positions to hedge against such risks. At 30 June 2023, if interest rates on Euro denominated borrowings had been 1,0% higher with all other variables held constant, pre-tax loss for the year would have been €2,749 higher, excluding any positive impact of interest income on deposits.

### (b) Credit risk

Credit risk is the risk of financial loss to the Group and the Company if a counterparty fails to meet its contractual obligations. Credit risk arises from cash and cash equivalents and trade and other receivables. For banks and financial institutions only well established with good reputation parties are accepted and the Company set limits to the degree of exposure for each financial institution. The Management of the Company ensures that sales are addressed to customers with high credit reliability and ability. Due to the expansion of the Company's activities abroad, the credit risk increases, especially in relation to foreign customers, for whom the effective control of their credibility is not always easy. Therefore, the Company continuously develops and further evolves its internal risk management mechanisms to fully confront this risk. Consequently, although credit risk exists in the context of the general adverse economic environment is currently assumed as controlled.

### (c) Liquidity risk

Liquidity risk is the risk that the Group or the Company will not be able to meet their financial obligations as they fall due. Liquidity risk is kept at low levels by ensuring that there is sufficient cash on demand and / or credit facilities to meet the financial obligations falling due in the next 12 months. The Group has sufficient undrawn borrowing facilities that can be utilized to fund potential shortfalls in cash resources. For the monitoring of the liquidity risk, the Group prepares cash flow forecasts on a frequent basis to ensure it has sufficient cash to meet its needs.

## 3.2 Capital management

The primary objective of the Group's and Company's capital management is to ensure that it maintains a strong credit rating and healthy capital ratio in order to support its business plans and maximize shareholder value. An important means of managing capital is the use of the gearing ratio (ratio of net debt to equity). Net debt includes interest bearing borrowings, as well as long-term and short-term lease liabilities less cash and cash equivalents.

### 3.3 Other risks

Geopolitical Risks

The geopolitical situation – with war between Russia-Ukraine continuing, difficulties in supply of certain goods and inflation rates still posing threats - creates uncertainty to global economy in general. There is no exposure of the Group to either Russia or Ukraine, resulting in no direct effect from continuing developments. Any effect is only indirect, related to the high energy cost, increase in interest rates and inflationary pressures along with the subsequent negative impact on our customers' disposable income. The Group continuously follows developments, estimating risks arising and the potential impact they might have on the Company and is planning accordingly.

## 4. Significant estimates and judgements of the management

For the preparation of the condensed interim financial statements, the significant accounting judgments on the part of the Management during the application of the Group's accounting policies, as well as the main sources of uncertainty assessment are the same as those adopted during the preparation of the annual financial statements of December 31, 2022.

## 5. Group segment information

The Group's primary segment reporting is categorized by business activity because the risk and profitability of the Group are mainly affected by the type of the product and services offered.

The Group, in accordance with the Strategic Business Plan for 2022-2026, operates under three business segments "Cyber Security Operations", "Field Services Operations" and "Infrastructure & Cloud Operations". This structure is considered an efficient way to improve market penetration and increase business, as the Group shall fully exploit the continuous investment plan in R&D and shall create economies of scale and to pursue large scale projects and critical business transactions.

The Group's and Company's key operating segments are:

### 1) Cyber Security Operations
